

Pool/Spa Combination Control Panel

RC2163BFE Remotely Operated Control System

Changing from Pool-to-Spa, and back again, has never been easier for homeowners and their guests. Reduce complicated and frustrating pool to spa operation down to a single simple switch.

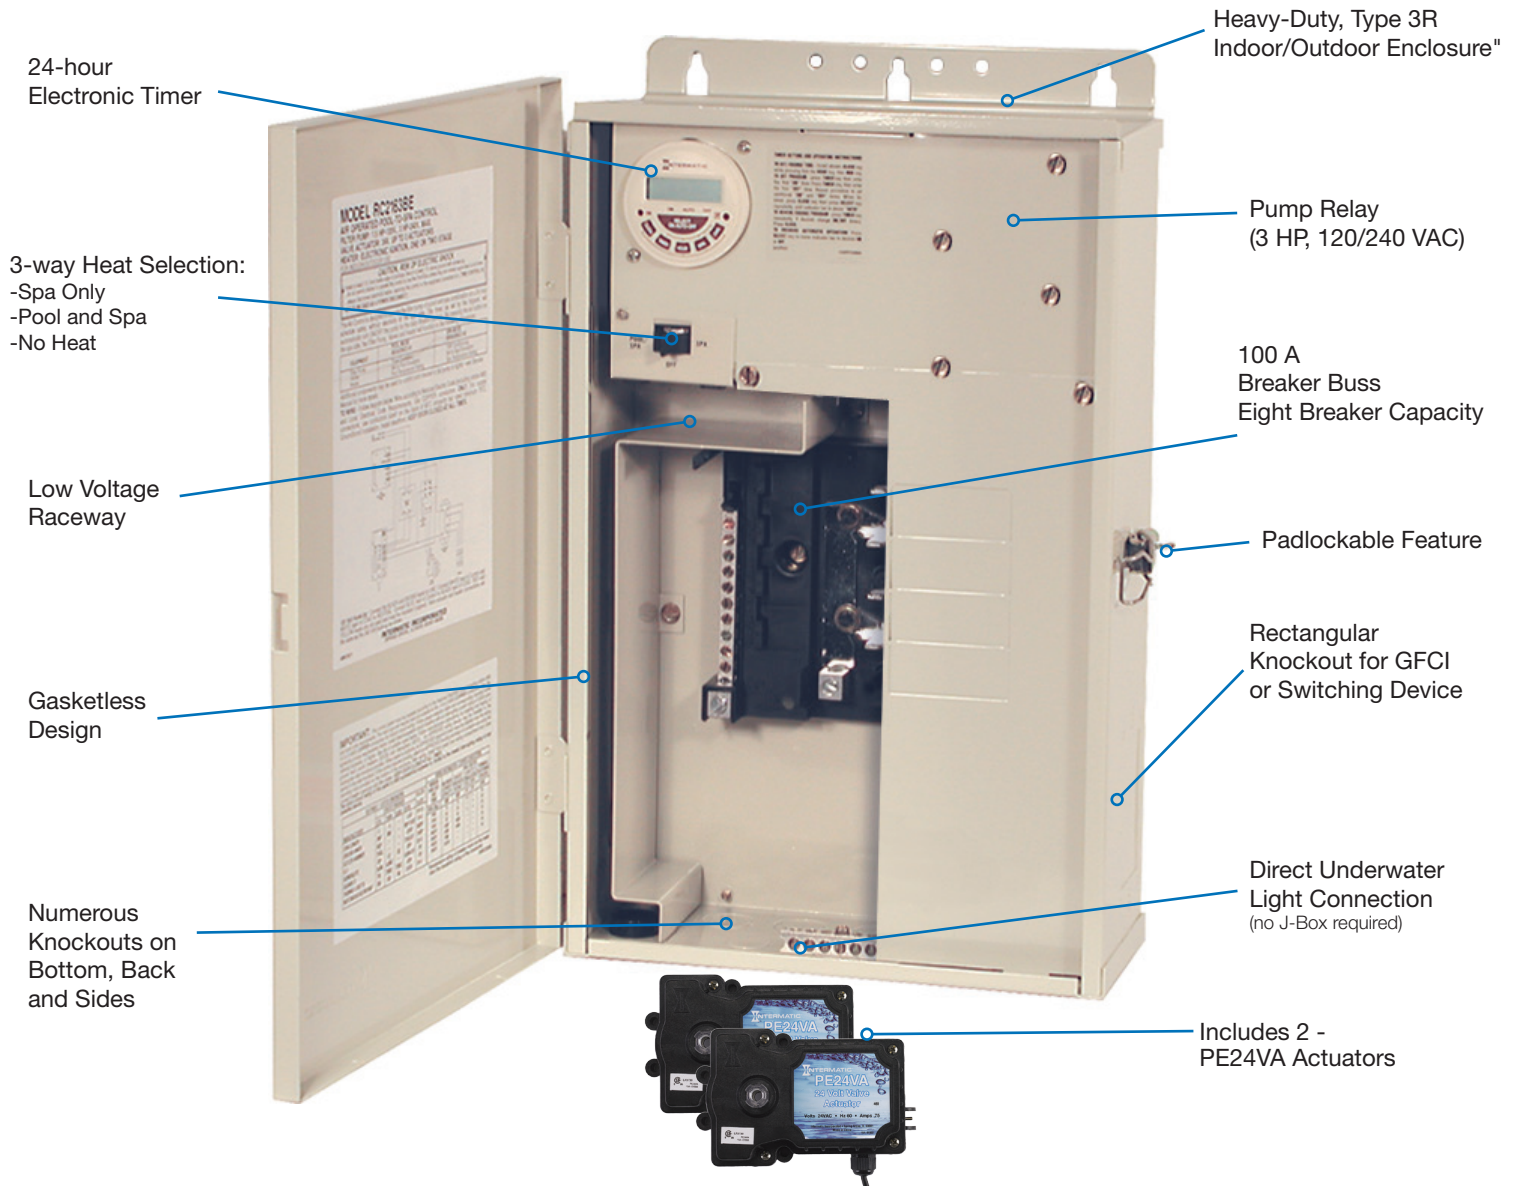

WITH ONE TOUCH, THE UNIT AUTOMATICALLY:

- Overrides the Energy Saving Timer
- Turns on the Pump
- Switches the Valves from the Pool/Filter Mode to the Spa or Water Feature Mode
- Switches the Compatible Dual Thermostat on the Heater or Heat Pump from the Pre-set Pool Temperature to the Pre-set Spa Temperature
- Changes Operation Back to the Pool when the Spa is Deactivated by the Switch

FEATURES:

- 24-Hour Electronic Time Clock
- Direct Underwater Light Connection (no J-Box required)
- One Touch Convenience for Pool/Spa Combos
- Simple to Install & Operate
- Retrofits Existing Installations
- Modular Design for Serviceability
- Operates Single Speed Filter Pump, Up to Three Valve Actuators and Dual Heater Thermostats
- Includes 2 - PE24VA Actuators

Optional Control Accessories *(Sold Separately)*
